

27th September 2020

Quest Carpets – Resumption of Factory Operations

Following instruction from the Chief Health Officer, we are pleased to advise that we will be reopening our manufacturing facility on Monday 28th September 2020.

We have no business continuity problems, we are in a good position. Whilst our current finished stock levels are less than desirable, our raw material stock levels are high, and measures are in place to enable us to fulfil back orders and replenish finished stock levels in a timely manner.

We would like to take this opportunity to thank you for your support and understanding, especially over the last 7 weeks.

If you have any questions or concerns, please feel free to direct your enquires to your Quest Carpets Account Manager or the undersigned.

Kind regards

Chris Bond
CEO

Matthew Amos
National Sales Manager
